

Capstone Project - Alina Barsan

[Link to Tableau Story](#)

1. Insight no.1

- **Summary-** I have created two dynamic bar charts that show the Most Profitable City in Tennessee and the Most Profitable Product Category for that city.
- **Design** - Bar charts are interactive, they show City name, profit and product category.
- **Resources** - N/A

2. Insight no.2

- **Summary-** I have created 2 dynamic line charts. One line chart shows Profit in the Office Supplies category for Lebanon, across the years 2015-2018. The other line chart shows the Profit for the Office Supplies category for all states, showing the month of May as being the highest most profitable month.
- **Design** - The line charts are interactive.
- **Resources** - N/A

3. Insight no.3

- **Summary** - From the map we can see Profit and Sales across all states.
- **Design** - The map shows some details for Sales and Product Category.
- **Resources** - N/A
